September 2018

**Errata No.:** USS110-September 2018-01

**Reference:** Page 8, changed July to September.

**MONTH-OF-INJURY¶**

---

The summer months from June through September were the peak period for contractor deaths from exposure to electricity, collectively accounting for 53% of the annual total, as shown in Figure 2, with July (15%) and August (14%) with the largest shares, followed by June (12%) and July-September (11%). As Figure 2 shows, injuries progressively fall with cold weather months, with January (1%), February (2%), and December (4%) recording the lowest shares of fatal electrical injuries. ¶
